CAPABILITY STATEMENT

WAGNERS

WAGNERS GROUP

WAGNERS GROUP

Wagners is a diversified Australian construction materials and services provider and an innovative producer of New Generation Building Materials (NGBM). Our NGBM division is leading the way with high-strength, lightweight, low carbon alternatives to traditional construction materials. Established in 1989, Wagners is an ASX-listed company operating in domestic and international markets.

NEW GENERATION BUILDING MATERIALS (NGBM)

Our Earth Friendly Concrete® (EFC®) and Composite Fibre Technologies (CFT) are pioneering more sustainable solutions for concrete and hardwood. Composite Fibre products are lightweight and have a long life span as they do not rust, rot or corrode.

CONSTRUCTION MATERIALS AND SERVICES (CMS)

Wagners' Construction Materials and Services (CMS) division manufactures and sells cement, flyash, reinforcing steel and aggregates. We also provide mobile and on-site concrete batching, crushing and haulage services.

WAGNERS GROUP PRODUCTS AND SERVICES

COMPOSITE FIBRE TECHNOLOGIES

CONCRETE AND SITE BATCH PLANTS

QUARRIES AND MOBILE CRUSHING

TRANSPORT

CEMENT, FLYASH AND LIME

STEEL REINFORCING

EARTH FRIENDLY CONCRETE

GLOBAL SERVICES

ENGINEERING SOLUTIONS

PROJECT ENGINEERING SERVICES

Wagners Project Engineering Services work hand in hand with all divisions of the Wagners business to ensure the successful completion of every project, no matter the size or location.

The team collaborate with engineers to build Concrete Batch Plants, pultrusion machines to produce Composite Fibre products, bridge propping on project sites to transport equipment and a Wharf on the Brisbane River with the capacity to service cargo ships carrying up to 40,000 tonnes.

The Project Engineering Services division designs, certifies, fabricates, and installs structural steel and infrastructure. Additionally, we perform services, repairs, and maintenance on all vehicles and equipment, and custom modifications of OEM equipment.

WAGNERS IS ISO 9001, ISO 14001 AND ISO 45001 CERTIFIED

QUARRY PROFILE

Amby Quarry has a high grade Basalt deposit.

The quarry is located 68 km west of Roma and 22 km east of Mitchell on the Warrego Highway.

OUR PRODUCTS

At Amby Quarry, basalt serves as the sole source rock for all of our quarrying activities (often called blue metal). Basalt is a fine-grained, dark-colored, extremely strong igneous rock that has a variety of uses, including road base, concrete aggregate, asphalt pavement aggregate, undefined ballast, and filter stones in drains. All of the quarried products made by Amby Quarry are produced using only the best grade of source rock.

Available products

- Ballast
- Roadbase
- Sorted rock
- Aggregate

OUR CAPACITY

We are licensed to produce up to 1 million tonnes per year. Our quarrying operation can be scaled up to meet any request. We have immediate access to the personnel, equipment, and other resources to satisfy the largest orders in the smallest timeframe.

SAFETY

Safety at our quarry operations is paramount and is principally regulated by the Queensland Government Department of Natural Resources and Mines, which regularly audits and inspects our operations.

Our safety management system is documented, regularly audited, and has 100% compliance.

QUALITY ASSURANCE

Amby Quarry promises the highest degree of professionalism and excellence in the provision of high-quality quarry materials. Excellent customer service and product quality are priorities for us. Extensive compliance testing of soils, rocks, aggregates, and pavement materials authenticates our products' quality.

Amby Quarry is certified for the supply of quarry products under ISO 9001:2015 for quality. We also have ISO 14001:2015 certification for the environment and ISO 45001:2018 certification for safety. We are TMR Certified.

ENVIRONMENT

We operate in accordance with the legislation that governs our business of extractive industry and site rehabilitation. Environmental impact management controls include noise, dust, and stormwater.

Site Equipment

- Supporting equipment as required
- Mobile Crushing and screening Plant
