

CONCRETE

Concrete including:

- On-site computer controlled batching plants 50-130m³/hr capacity available for quick deployment to any location.
- Technical advice and expert management of concrete requirements based on Wagners' expertise in concrete technology from our NATA accredited laboratory.

Equipment & Resources

- Mobile and static dry and wet mix concrete plants
- Mobile cement silos
- Concrete Agitators and Quick change Agitator and Body Tipper or water tank trucks
- Front End Loaders and Integrated Tool Carriers
- Water Chillers and Ice Plants
- NATA accredited concrete testing laboratories

Track Record

Wagners has worked successfully with many project proponents and constructors including QGC, Santos, Leighton, INPEX, JKC, MacMahons, John Holland, Incitec Pivot, WDRL, Ausenco, McConnell Dowell and Fluor

Concrete projects include:

- INPEX Ichthys LNG Darwin 140,000m³ Concrete Supply
- Santos GLNG Roma 10,000m³ Concrete Supply
- MJHJV Darwin CVL-2 27,000m³ Concrete Supply
- Prigordyne LNG Tanks - Russia 65,000m³ concrete supply
- Burnett River Dam 47,000m³ concrete supply
