WAGNERS

WAGNERS GROUP

WAGNERS GROUP

Wagners is a diversified Australian construction materials and services provider and an innovative producer of New Generation Building Materials (NGBM). Our NGBM division is leading the way with high-strength, lightweight, low carbon alternatives to traditional construction materials. Established in 1989, Wagners is an ASX-listed company operating in domestic and international markets.

NEW GENERATION BUILDING MATERIALS (NGBM)

Our Earth Friendly Concrete® (EFC®) and Composite Fibre Technologies (CFT) are pioneering more sustainable solutions for concrete and hardwood. Composite Fibre products are lightweight and have a long life span as they do not rust, rot or corrode.

CONSTRUCTION MATERIALS AND SERVICES (CMS)

Wagners' Construction Materials and Services (CMS) division manufactures and sells cement, flyash, reinforcing steel and aggregates. We also provide mobile and on-site concrete batching, crushing and haulage services.

WAGNERS GROUP PRODUCTS AND SERVICES

PROJECT ENGINEERING SERVICES

Wagners Project Engineering Services work hand in hand with all divisions of the Wagners business to ensure the successful completion of every project, no matter the size or location.

The team collaborate with engineers to build Concrete Batch Plants, pultrusion machines to produce Composite Fibre products, bridge propping on project sites to transport equipment and a Wharf on the Brisbane River with the capacity to service cargo ships carrying up to 40,000 tonnes.

The Project Engineering Services division designs, certifies, fabricates, and installs structural steel and infrastructure. Additionally, we perform services, repairs, and maintenance on all vehicles and equipment, and custom modifications of OEM equipment.

WAGNERS IS ISO 9001, ISO 14001 AND ISO 45001 CERTIFIED, ACCREDITED BY SAI GLOBAL.

STEEL REINFORCING

REINFORCING

Wagners provides steel reinforcing services for small projects such as residential house requirements, to large projects such as gas and coal infrastructure, multi-story high-rise buildings, precast beams, and transport infrastructure tunnels.

The manufacturing facilities are ACRS accredited and processed to the AS 4671 standard. Wagners provides flexible manufacturing for both large and small-scale project requirements by combining off-coil and cut and bend processing equipment.
